Application for the position of Full Stack Developer

Dear Sir/Madam,

My name is muaz abebe and I am writing this cover letter as a part of my application for the Front-end Developer job with in Trakstar, Reviewsnap, Recruiterbox, Mindflash Seattle . I believe that my previous experience paired with well-developed field knowledge makes me an ideal fit for the position. Furthermore, I am confident that I would be a valuable addition to not only your team but the whole company.

First of all, I am an accuracy-oriented and dedicated individual with a pro-active approach and the crucial ability to operate both independently and in fast-paced team environments. Having worked as a Front-end Developer at Multi Render.Inc. for over 2 years, I am skilled in all aspects of the job. Besides developing original micro-sites, landing pages, and templates, providing support to clients, and fixing any front-end related issues, I also excel at:

- Testing the front-end code and maintaining relevant files and records.
- Working on multiple web projects simultaneously and training and supervising new staff.
- Designing complex interfaces and executing various key clerical tasks as assigned.

Next, I am offering the ability to use all software necessary for the role at an expert level. Possessing a strong attention to detail and exceptional critical thinking skills, I am a native amharic speaker with a proficiency in English . Please do not hesitate to contact me if you need any additional information on my qualifications. I can be reached at 206-565-7699 or via email at muazwowtech@gmail.com. Thank you for your time and consideration and I look forward to speaking with you in the near future.

Sincerely,

muaz abebe
